THE FOUR HEARTS

Four creations. Four signatures. One vision.

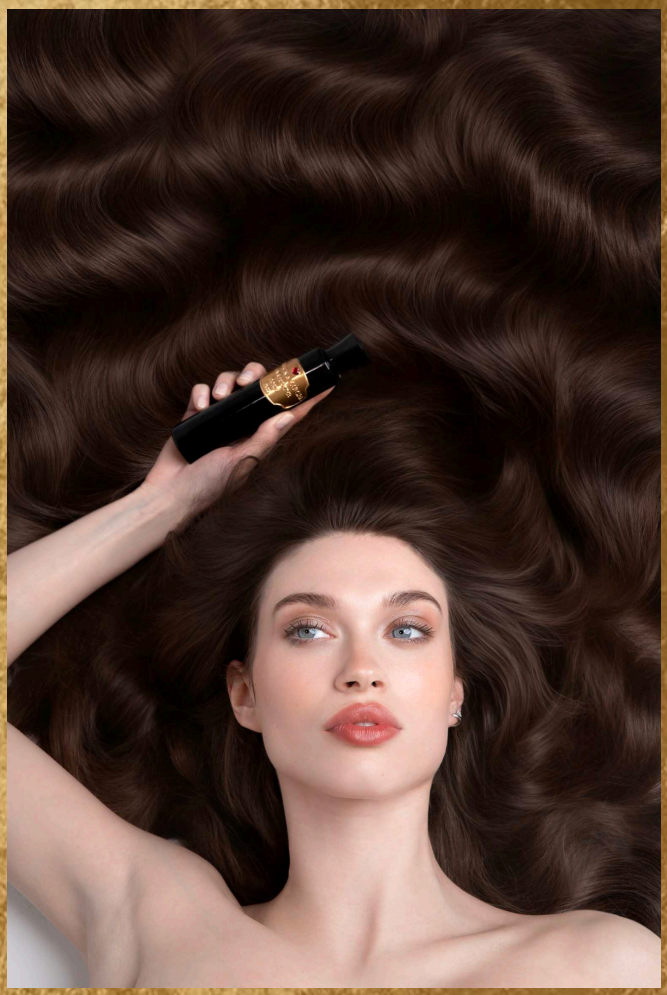

Inspired by the spirit of High Jewellery and created exclusively for hair, each fragrance leaves an invisible Parisian signature. A delicate ritual where scent, movement and radiance become one.

AN INVISIBLE SIGNATURE

Fragrance in motion

Hair carries fragrance with singular intimacy. Every movement releases a subtle trail, close to the skin yet distinctly present.

PATRICK & MARCEL transforms this natural affinity into a refined Parisian ritual.

THE MATERIAL

Hair as a precious veil

Light, texture and movement reveal the beauty of hair. The fragrance settles delicately upon each fibre, enhancing its presence without weighing it down.

An invisible adornment, designed to be felt before it is understood.

THE RITUAL

A gesture of intimacy

A final mist completes the silhouette. Applied at a distance, it perfumes the lengths with a refined, non-greasy veil and accompanies the natural movement of the hair.

THE SENSATION

Silk, light and depth

The beauty of hair is revealed through contrast: softness and structure, shadow and radiance, restraint and sensuality.

Fragrance becomes the final expression of this balance.

THE CARE INFUSION

Beauty beyond fragrance

Cornflower floral water offers light, balanced hydration. Vitamins B8 and B3, together with provitamin B5, help maintain softness and natural radiance. Vitamin E provides antioxidant protection against environmental aggressors.

A vegan, light and non-greasy formula, respectful of the hair and scalp.

WHERE THE SPIRIT OF

High Jewellery becomes fragrance.

Four gemstones. Four olfactory signatures. One Maison.
